LIDO DI JESOLO (VENICE)

Lying on the eastern banks of the lagoon Lido di Jesolo is one of the most important seaside resorts along the Adriatic coast, just across the lagoon from Venice and only 30kms from Venice Marco Polo International Airport.

Lido di Jesolo with its fine dolomite sandy beach covering an area of 15kms, every year accommodates over 10 million tourists. Ideal destination to enjoy the clear waters of the Adriatic, the surrounding nature, culture, sport, shopping and night life. Good base for many day trips such as Venice, the Islands of the lagoon, Verona, Padua, Trieste, Ravenna and many many more.

Spending your time is not a problem in Jesolo with a myriad of available activities from the weekly local market, the new 18 hole golf course, tennis, windsurf, fishing, Acquapark with slides, games and thrills for all ages, to the international Go-kart track "Pista Azzurra" .

Cultural and folklorist exhibition, open-air concerts, as well as top-level sports events are included in the Jesolo Events calendar.

15 kms of pedestrian area – the main high street becomes a pedestrian precinct every night (May-September) from 20:00 hrs to 06:00hrs, with an endless selection of shops, outdoor cafes, games halls, mini-golf, bars and restaurants .

It is very easy to get to Venice from Jesolo by using the connecting public bus & boat service:

From the Vista Palace apartments they need to just walk across the square to the public bus stop along the main road (opposite the tourist office).

Catch bus n° 5 to Punta Sabbioni, which will take about 20 minutes.

At Punta Sabbioni they board the connecting large motorboat which takes about 45 minutes to get to Venice, docking 3 bridges from St. Marks square (it is a very nice scenic journey and the boat stops at Venice Lido before continuing to Venice).

Same journey for the return transfer, boat from same drop-off point in Venice and public bus from Punta Sabbioni to Jesolo (Piazza Brescia).

The current fare for return bus & boat is €17.80 per person (price is subject to increase for the summer season). The service is very frequent during the summer months, about every 30 minutes and last boat back is usually around mid-night.
